

Choir Nights

(Mary Potter)

Here we are
And we'll sing to you
And we'll bring to you
A reflection on what we do

Thursday* nights in the hall
You are welcome short or tall
Basses, alto's, sops and tenors too
(Specially the tenors!)

Learning notes short and long
Jean** will know if you go wrong
Keeping tabs on ev'rything we do
(Don't forget the basses)

She puts us through our paces
Want to see our faces
Watching, waiting poised for ev'ry cue
(Noses out of books please)

Come along, sing a song
Soon you'll feel that you belong
Music in our hearts and minds it's true

In a choir there's so much more you can do
Singing chords with melodies
Tenors take the tune
Altos in the middle
Don't forget the basses
Did you ever wonder how deep we can go
That's impressive!

And when a concert's looming
We finesse our grooming
Titivate our tuning through and through
Are the jackets ready
Are the bow ties sitting steady

We are here, you are there
Sounds are whirling through the air
Magic music flows
Magic music flows
Magic music flows from us to you

(* change to the day you rehearse)

(** replace with name of your MD)
