

Night Creatures' Threat

(Mary Potter)

Stay behind your metal locks
Avoid surprise nocturnal shocks
Stoat and badger, otter, fox and owl
Bat's got radar we've got means
To find our way in the night time scenes
Just beware when we go on the prowl

You may see the slant eyed lynx
But you won't know what he thinkssss
He is cagey like the desert sphinx
Watch your back we're right behind
You don't know what's in our mind
Claws we sharpen teeth we grind

What's your business why are you here
We'll be friendly have no fear
But we recommend you stay at home
Moonlit shadows give a fright
You should not be out at night
Don't go in the forest on your own
Stay home!
