

Follow the Star

(Mary Potter)

Kings from afar saw a new star they'd never seen before
They unrolled their scrolls and papers, studied them some more
There was no doubt, no doubt at all, the star meant a king was born
So they found a present for him left the very next morn

(Chorus)

Follow the star, guide us to the king of kings
Star in the night shimmering bright
Three wise men travelling far

Dangerous days, dangerous ways, we must be brave and strong
We have courage for the star keeps shining all day long
On through the cold, on through the dark and on through the pouring rain
Crossing rivers, down darl valleys, over hill and plain

(Chorus)

Follow the star, guide us to the king of kings
Star in the night shimmering bright
Three wise men travelling far
