

# Step Into Our Spaceship (reprise)

(Mary Potter)

Step into our spaceship we'll go home to Earth again  
Step into our spaceship we'll go home to Earth again  
We'll see a million stars gliding past the sparkling Milky Way,  
We've seen unknown places, alien spaces, where we've never been before

Step into our spaceship  
Step into our spaceship  
10, 9, 8, 7, 6, 5, 4, 3, 2, 1,  
Blast off!

Starship, starship, floating in space  
Down we go now, down we go now, down we go  
Back on Earth  
Back on Earth  
Home again
